

Quiz #1:

Identity

Question #1

True or False?

All the different components of our identity are usually fully developed by age 20 and will not change as we get older.

Question #2

Which of the following is not a personality trait?

- a. How expressive you are
- b. Your sense of humour
- c. How optimistic you are
- d. Your spirituality or faith

Question #3

True or False?

Gender expression is a biologically hard-wired phenomenon that culture and society have limited influence on.

Question #4

True or False?

All of the following can influence a person's sexuality: culture; religion; family; friends.

Question #5

True or False?

Spirituality and religion are two words used to mean the same thing: a belief in God or some other supreme being.
