

BUILD-A-BRAIN RIGHT SIDE

Colour the brain lobes.
Cut around the outside.
Cut along the dashed lines
(where the arrows are pointing to).
Tuck the flaps & tabs so the dashed
lines meet. Glue or tape them
together to make your own
brain hat!

GROW A BRAIN

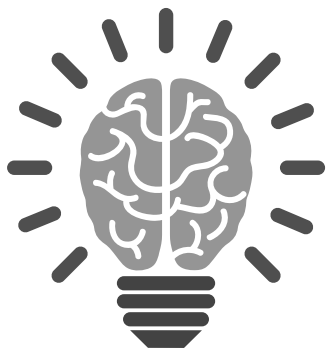

Create your own example of how your brain grows and develops new skills!

As a baby

As a kid

As an adult

Remember:

our brain and body are connected. Our brain grows and changes over time.
