

Module 1: Understanding Mental Health

Conceptual Knowledge:

- Everyone has mental health
- Mental health is more than a positive mood (all emotions are part of mental health)
- It is important to use appropriate words to describe our emotions, to regulate and cope
- Mental health has a wide range of states, including no distress, mental distress (aka stress), mental health problems and mental disorders

Procedural Knowledge:

- To be able to define and describe mental health
- To apply appropriate words to describe different emotions, and their intensity
- To distinguish different states of mental health associated with different life events and situations

Understanding and Expressing Feelings

Students will be expected to

- recognize that individuals can choose their own emotional reactions to events and thoughts
- establish personal guidelines for expressing feelings

Module 2: The Stigma of Mental/Neurodevelopmental Disorders

Conceptual Knowledge:

- Mental/neurodevelopmental disorders are common (1 in 5 of us will experience a disorder in our lifetime)
- Anyone can have a mental disorder
- Stigma involves negative thoughts, feelings and behaviours towards mental disorders and their treatments

Procedural Knowledge:

- Each person can be appreciated as a unique individual, instead of judged by a label
- By better understanding the stigma of mental disorders, we can reduce the impact

Module 3: Mental Health and the Brain

Conceptual Knowledge:

- Our thoughts, feelings, behaviours and reactions are linked with the brain
- The brain and the body are connected
- Mental health is a component of overall health
- The brain changes over time

Procedural Knowledge:

- Explain how the brain and body are connected
- Identify basic parts of the brain and their functions
- Describe ways that the brain adapts to the environment and changes over time

Module 4: Common Mental/Neurodevelopmental Disorders

Conceptual Knowledge:

- All mental disorders reflect difficulties in thoughts, emotions, behaviours and signalling
- The sooner people receive proper treatment and support, the better the outcomes

Procedural Knowledge:

- To distinguish between expected life challenges and mental / neurodevelopmental disorders
- To demonstrate an understanding of common mental / neurodevelopmental disorders affecting children
- To identify ways that people with mental disorders can live a fulfilling life with appropriate treatments

Module 5: Helping Self and Helping Others

Conceptual Knowledge:

- Everyone has mental health that can be supported and promoted
- There are many people who can provide support for mental health problems and mental disorders
- Getting help early for yourself and others increases positive mental health outcomes

Procedural Knowledge:

- To understand that mental health can be supported in various ways
- To learn to seek help from reliable sources when needed
- To know how to ask for help in an effective manner

- identify and communicate values and beliefs that affect healthy choices (W-6.5)

- develop personal strategies for dealing with stress and change

Module 6: Getting Mentally Healthy

Conceptual Knowledge:

- Coping with stress appropriately can help us build new skills and increase resilience
- The brain and body are connected
- What is good for physical health is good for mental health
- Positive lifestyle choices can enhance our mental health

Procedural Knowledge:

- To understand that we need some stress to perform well
- To learn that stress can be managed
- To recognize the brain-body connection related to the stress response
- To develop strategies to promote strong mental health

Grade 6

WELLNESS CHOICES-General Curriculum Outcome

Students will make responsible and informed choices to maintain health and to promote safety for self and others.

Specific Curriculum Outcomes

Personal Health

Students will be expected to

- evaluate the need for balance and variety in daily activities that promote personal health

- evaluate the need for balance and variety in daily activities that promote personal health (W-6.1)

- develop personal strategies for dealing with stress and change
